

Springtime at Quiet Walker Lodge

Volume 3 Issue 2

Meet our new innkeepers John and Deb Sherman.

The words that best describe John and Deb are energetic and serious about providing the best service possible to their guests. Coming from Prescott, Wisconsin where they ran a beautiful B&B, called the Arbor Inn, John and Deb love meeting guests. John is a fantastic cook and serves gourmet breakfasts. Deb is a nationally certified therapist and provides guest with the opportunity to enjoy a relaxing massage while staying at the lodge.

John and Deb - All smiles with a dream come true....

Ready to provide you with an awesome experience here at QWL

Originally from Colorado, they love nature, hiking and barbecuing. John likes to smoke his meats on his Green Egg. When he is cooking, the valley fills with the most delectable smells! Everything he cooks is created from scratch. The vegetable garden and greenhouses sport all the fixings from garlic to herbs so he can make his food fresh and tasty.

We hope you will plan a weekend to come out and meet John and Deb.... maybe even schedule yourself for a relaxing massage while you are here.

Bird feeders and bird houses abound

Spring is in the air! We have so many beautiful birds here at the lodge. With three big bird feeders and bird houses throughout the property, many birds flock here to lay their eggs and care for their young. Even the kiwi bush has a robin's nest with four blue eggs nestled in the nest. Mother Robin keeps a good eye on her nest. Soon the sound of little chirps will echo throughout the valley.
